CAREER HISTORY

- 2 years of Development at DataSmart Technologies as a Junior Developer. Responsibilities included support, design, and creating websites based on client requirements, such as e-commerce websites or websites that stored client data (in-house tools, for example). The technologies used were CSS3, HTML, PHP, and MySQL. Also, frameworks such as Opencart, Grails, Spring STS, and Laravel.

- Around 1.5 years at Refresh Creative Media as a Junior Developer, and later an Intermediate Developer. Responsibilities include support, design, and creating websites based on client requirements, such as e-commerce websites or websites that stored client data. Also worked on mobile apps. The technologies used were CSS3, HTML, PHP, and MySQL. Also, frameworks such as Laravel, Ionic, and Xamarin.

- 2 months at Sim Direct as an Intermediate Developer. Responsibilities include supporting and maintaining already existing in-house tools. Reason for leaving: retrenched because company was downsizing their SA branch.

- 9 months at Kurtosys as an Intermediate Developer. Responsibilities include supporting and maintaining already existing tools.

- 4 months at Lavalamp Lab as an Intermediate Developer. Responsibilities include supporting and maintaining already existing websites as well as starting new projects from scratch (all API driven functionality). My current place of employment.

PERSONAL ATTRIBUTES /COMPETENCIES

- Ability to communicate effectively in English and Afrikaans.
- Excellent written and verbal communication skills.
- A team player.
- Flexible.
- Able to work under pressure and unsupervised.
- Disciplined in adherence to principles and values.
- Good planning, organising and time-management skills.
- Strong analytical and numerical skills.
- Good relating and networking skills.
- Deadline driven.
- Discreet, and able to maintain a high level of confidentiality.
